PROFESSIONAL EXPERIENCE

Angular Developer

VIEWNEXT · An IBM subsidiary

Jul 2023 - Present

Development of Angular applications for the public sector, with integration of APIs and Java and Spring Boot backends.

- Contribution to CIRNM, a municipal environmental management system.
- Development and improvement of SIVCA, integrated with MiNT for the management, validation and monitoring of Madrid's air-quality data.
- Implementation of components, screens and new features; application maintenance and API integration with the Java and QA teams.

Web developer

INETUM

May 2022 - Sept 2022

Development of internal and web applications at Inetum Catalunya, with low-code tools and web technologies.

- Development of enterprise applications with Microsoft Power Apps.
- Creation of dashboards and reports with Microsoft Power BI.

EDUCATION

Advanced Vocational Training Diploma · Web Application Development (DAW)

Institut Camí de Mar

Sept 2021 - May 2023

SELECTED PROJECTS

100 Cims

Technologies: Angular, TypeScript, Java, Spring Boot, PostgreSQL, Python, Docker

- REST API with Maven and PostgreSQL 17 in a container.
- Python pipeline that collects the peak data and loads it into the database.

Strava/Garmin Training Assistant

Technologies: Cloudflare Workers, D1, Queues, R2, React, TypeScript, Hono, Vitest

- Queues with retries and a dead-letter queue, plus an hourly cron and a daily purge.
- Strava tokens encrypted with AES-GCM before being stored in D1.

PROFESSIONAL SUMMARY

Software developer specialising in Angular and Java, with experience in public-sector applications and in building his own products end to end.

TECHNICAL SKILLS

Frontend

Angular	TypeScript	JavaScript
HTML	CSS	

Backend

Java	Spring Boot	REST APIs	JPA
------	-------------	-----------	-----

Data and delivery

SQL	PostgreSQL	Docker	Git
GitHub	CI/CD		

CERTIFICATIONS

Angular: De cero a experto

DevTalles · 2024 · 34 h

Spring Boot Starters

Viewnext · 2025 · 12 h

JPA (Java Persistence API)

Viewnext · 2025 · 12 h

Advanced SQL

Viewnext · 2025 · 8 h

Docker y DevOps
